

# The insendi platform

Bring digital learning journeys to life with the insendi platform, the go-to solution for easy, effective, and enjoyable online education.

## Designed for you

From online MBAs to blended Executive Education, and short corporate courses to full digital programmes, our globally-renowned platform supports online learning in various use cases and industries. Along with help from the expert insendi Services team, subject matter experts (SMEs) can be supported with scaffolding of learning, content creation, course delivery, and more.

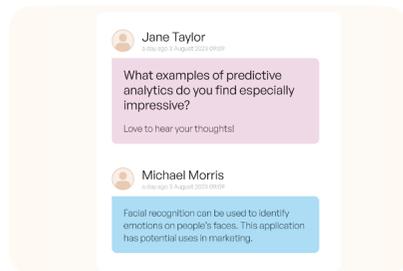

## Complete integration capability

Our technological infrastructure is secure and robust, as well as integrating smoothly with local systems. For increased security and flexibility, we have fully adopted the LTI 1.3 Advantage package. Users can also create API plug-ins and receive 24/7 help from our help desk.

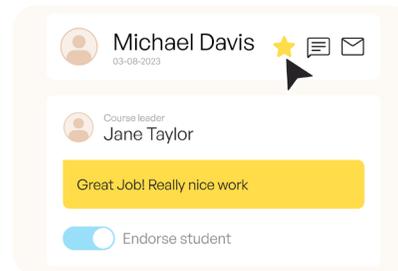

## All functionality, no fuss

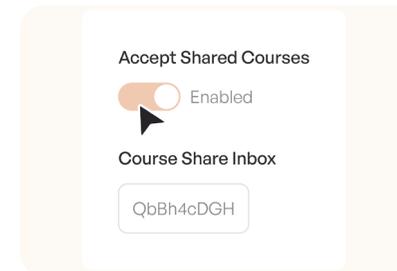

Our in-built suite of drag-and-drop activities gives SMEs **full creative control** and learners a more engaging experience.

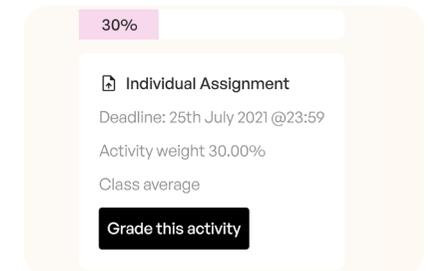

Our **interactive newsfeed** creates stronger online learning communities by encouraging on-topic communication.

Our **diverse** feedback methods allow SMEs to **feedback to learners** in the way that best suits their educational needs.

Our **easy distribution** option means content can be **shared** with the wider insendi community to increase ROI.

Our **intuitive interface** keeps key info, such as assessments and readings, all in one place, ensuring learners stay informed.
